✓ Individual

✓ Small Group

✓ Large Group

OBJECTIVE

State the objective(s).

You've already learned this digraph. The sound /ch/ is spelled using two letters—c and h—that work together to make a new sound, /ch/. In this lesson, you will learn how to read words containing /ch/ spelled ch.

REVIEW & VOCABULARY

Review prerequisite skills and teach related vocabulary.

Review, if needed: A consonant digraph is two or three consonants that work together to create a new sound. In a consonant digraph, the new sound may be completely different than the sound of the letters used to spell it. For example, in the digraph we will be learning in this lesson, the letter c, which usually says /k/, and the letter h, which usually says /h/, work together to create a completely different sound: /ch/.

Date:

Demonstrate. Teach the new skill, model with clear explanations, verbalize your thinking process.

Display or hold the sound-spelling card for ch. Let's review.

- Point to the picture. The sound is /ch/, as in the word chick. What's the sound? Students: /ch/
- Point to the spelling pattern at the bottom of the card. /ch/ is spelled ch. What's the spelling for /ch/? Students: ch

Now, watch and listen as I sound out and read some words containing /ch/ spelled ch.

Write the word *chip* on the board.

- First, I look for parts I know. I'll underline the vowel. Underline i and say /iii/. I'll put a dot under each consonant sound I know. If I see two consonants that work together to make a new sound—a digraph—I'll put one dot under the pair of letters, because I know they only make one sound. Put a dot under ch and say /ch/; put a dot under p and say /p/
- Now, I'll sound out the word, beginning on the left: /ch//iii//p/. Chip!

Teacher Tip: If students need extra support in the pronunciation of a sound, incorporate the "Additional support" section at the end of this activity.

Date:

Provide guided practice.

Distribute student whiteboards, markers, and erasers.

Let's read some words together. If you know the word, don't say it aloud. Pretend you haven't seen it before.

Write the word check on the board. Write this word on your board (or make your board look like mine).

Step 1 is Look for parts you know.

- Underline the vowel. Say the sound it makes. Students and teacher underline e and say /ĕĕĕ/.
- Dot under each consonant sound and say the sound it makes. Remember, if you see two consonants that work together to say one sound, put one dot under the pair. Students and teacher put dots under *ch* and *ck* and say the sounds they make.

Step 2 is Sound it out.

- Sound it out, beginning on the left. Students and teacher: /ch//ĕĕĕ//k/.
- What's the word? Students and teacher: check

Step 3 is Check it.

- Does it sound like a real word? Have you heard it before?
- If you found the word in a sentence, you would read the sentence again and see if it makes sense.

Repeat the routine 2-3 times with words from the Word List.

Word List	
chat	
inch	
chin	

Provide independent practice.

Date:

This time, you'll do it independently. I'll remind you of the steps to take, if needed. I'll call on one person to read the word aloud. Write the word *rich* on the board. Write this word on your board (or *make your board look like mine*).

Prompt, if needed. Step 1 is Look for parts you know.

Prompt, if needed. Step 2 is Sound it out.

Prompt, if needed. Step 3 is Check it.

(Student name), what's the word? Selected student responds.

Continue the routine using words from the Word List.

Word List	
chill	
chimp	
much	
lunch	
chuck	

Assess students (formally or informally). Determine the level of mastery for the stated objective.

Observe individual students as they respond during guided and independent practice. Scaffold or correct all errors. Provide specific feedback for accurate responses.

Date:

_			

Additional support. Teach students how and where the sound is made. Allow them to use handheld mirrors with the lesson, if available.

Sound	Where	What	How	
/ch/	Tongue touching roof of	Tongue	Voice off	
	mouth, lips sticking out	10116		

Students may benefit from understanding how and where a letter-sound is made. Teaching the shape of the mouth, the articulators (the parts of the mouth that block the flow of air when making sounds), and the voice can aid in correct pronunciation of each sound. Here's a sample lesson:

The sound it makes is /ch/. The spelling for /ch/ is ch. Remember, /ch/ is a sound that cannot be held.

When I make the sound /ch/, my mouth looks like this. My lips are rounded and sticking out. Model the shape of your mouth as you make the sound /ch/. Can you make your mouth look like mine? If possible, let students use handheld mirrors to check the shape of the mouth.

When I make the sound /ch/, I am touching the tip of my tongue to the roof of my mouth, on the ridge behind my front teeth. I round my lips and stick them out, and then I shoot out a quick burst of air to say /ch/. Can you feel your tongue up on the roof of your mouth? Are you sticking your lips out? Now shoot the air out in a quick burst. Again, let students use handheld mirrors, if available.

When I make the sound /ch/, my voice is off. I don't use my voice to make the sound /ch/. If I put my hand on my throat when I make the sound /ch/, I can't feel a vibration. Put your hand on your throat and say the sound /ch/. Do you feel a vibration?

Enrichment/Extension. Provide enrichment and extension activities for students who need less support.

For students who demonstrate mastery of sound-spelling correspondences, work toward automaticity of blending and segmenting words with known graphemes. You may also consider moving to the instructional protocol for encoding words with digraph sh.
