I DO IT!

If students need support with:	Then try this:											
<p>Sound production/identification</p> <p><i>Allow them to use handheld mirrors with the lesson, if available.</i></p>	<table border="1" data-bbox="672 730 1816 812"> <thead> <tr> <th data-bbox="672 730 919 771">Sound</th> <th data-bbox="919 730 1323 771">Where</th> <th data-bbox="1323 730 1570 771">What</th> <th data-bbox="1570 730 1816 771">How</th> </tr> </thead> <tbody> <tr> <td data-bbox="672 771 919 812">/d/</td> <td data-bbox="919 771 1323 812">Tongue behind the top teeth</td> <td data-bbox="1323 771 1570 812">Tongue</td> <td data-bbox="1570 771 1816 812">Voice on</td> </tr> </tbody> </table> <p>Students may benefit from understanding how and where a letter-sound is made. Teaching the shape of the mouth, the articulators (the parts of the mouth that block the flow of air when making sounds), and the voice can aid in correct pronunciation of each sound. Here's a sample:</p> <p>The name of this letter is <i>Dd</i>. The sound it makes is /d/. The spelling for /d/ is <i>d</i>. Remember, /d/ is a sound that cannot be held.</p> <p>When I make the sound /d/, my mouth looks like this. Model the shape of your mouth as you make the sound /d/. Can you make your mouth look like mine? If possible, let students use handheld mirrors to check the shape of the mouth.</p> <p>When I make the sound /d/, I touch the tip of my tongue behind my top teeth. Can you feel your tongue behind your top teeth when you make the sound /d/? Again, let students use handheld mirrors, if available.</p> <p>When I make the sound /d/, my voice is on. I use my voice to make the sound /d/. If I put my hand on my throat when I make the sound /d/, I can feel a vibration. Put your hand on your throat and say the sound /d/. Do you feel a vibration?</p>				Sound	Where	What	How	/d/	Tongue behind the top teeth	Tongue	Voice on
Sound	Where	What	How									
/d/	Tongue behind the top teeth	Tongue	Voice on

Letter *Dd* Introduction

WE DO IT!

Provide guided practice.

Let's try it together! I will say the steps as you do them. Show students the sound-spelling card for *Dd*.

The name of the letter is *Dd*. Name? Students respond with letter name: *Dd*.

The sound the letter makes is /d/. Sound? Students respond with letter sound: /d/.

The spelling for /d/ is *d*. Spelling? Students respond with the spelling: *d*.

Review 1-2 times, if needed: **Name? Sound? Spelling?**

YOU DO IT!

Provide independent practice.

Your turn. I will hold the card in front of one student at a time. I will ask that student to tell me the *name*, the *sound*, or the *spelling*. Listen closely so you know which one to say out loud.

Hold the card up so everyone can see it. Then, hold the card directly in front of one student and say one of the following:

Name? Student responds with letter name.

Sound? Student responds with letter sound.

Spelling? Student responds with letter name.

Repeat the routine so that each student has the opportunity to say the name, the sound, and the spelling.

Now we know that the name of the letter is *Dd*. The sound the letter makes is /d/, and the spelling for /d/ is *d*.

OR: Now we know that when we want to write the sound /d/, we can use the letter *d*.

Teacher Tip: When asking for individual student responses, do NOT go in a predictable order (round robin)! Keep the students on their toes by skipping around.

ASSESS

Assess students (formally or informally). *Determine the level of mastery for the stated objective.*

Observe individual students as they respond during guided and independent practice.
Scaffold or correct all errors. Provide specific feedback for accurate responses.

Teacher Tip: As students learn more and more letter sounds, you can begin or end the session with a lightning round of sounds, where you flash students the sound-spelling cards and students make the sounds as quickly as possible.

ENRICH/EXTEND

Enrichment/Extension. *Provide enrichment and extension activities for students who need less support.*

For students who show mastery of letter-sound correspondences, work toward automaticity in blending words with two or more sounds using known graphemes.
